History of a Meal.

o'clock in the evening. And again, from a Russian silver fox hide and twenty silver Northumberland household book bearing gray for tails adorn the ends. In the make date 1512, we learn that the family rose, at 6 up pieces of the furs from the Russian sable o'clock, breakfasted at 7, dined at 10, supped | Persian lamb, Angora goat, China goat at 4 and shut the gates at 9 r. s.

Louis XIV. did not dine till 12, while his muskrat, wearel, leopard and the Russian contemporaries, Cromwell and Charles II., took the meal at 1. In 1700 the hour was advanced to 2, and in 1751 the Duchess of somerset's dinner time was 3. In. 1760 Cowper speaks of 4 o'clock as the then fashionauntil 8 or D.

The Romans, in the time of cicero and Augustus, took breakfast from 3 to 4 in the morning, a luncheon at 12 or 1, and at about 3 o'clock the come or principal meni of the day, corresponding with our dinner. Con-currently, we read of some not dining until sunset. A Roman dinner at the house of a wealthy man consisted chiefly of three courses. All sorts of stimulants to the appetite were first served up, and eggs were todispensable to the first course. Among the various dishes we may instance the guinca hen, pheasant, nightingale and the thrush a birds most in repute. The Roman gourmands held peacooks in great estimation, especially their torgues. Macrobius states that they were first eaten by Hortensius, the rater, and acquired such repute that a single peacock was sold at 50 denarii the dena rius being equal to about 17 cents of our money.

Tupleat Chicago

This is the symbolic figure which Chicago has adopted to typify the "dauntless, resolute, self-possessed, confident and indomir-

able spirit " of the Western metropolis. It is submitted, and its author is Charles Hollo-

way, of Chicago.

Butterfly Embroidery. A kind of work which is rather novel is nowers and butterflies worked first, an! ther. lightly stitched onto the material. For intance, the butterflies are sewn to the work only by their bodies. The wings are cut out separately (lines is preferable for this kind of work), button-holed all round the edge with yellow silk or flax thread, and the markings on the wings worked by light stitches

up the lines and satin stitches on the large The wings are then fastened to the body, which is made of two small pieces of linen cut out and covered with satin stitch; the body is firmly stitched onto the linen cloth. and the wings should be gently pinched, so as to make them stand up nicely. In this kind f work can be made very dainty pincushions, small and round, with a pufling of ik and a worked round of linen in the centre, with a butterfly lightly poised on one side. It looks most effective to carry out a design in flowers, with the petals worked this Wild roses look particularly pretty. way.

Frattable Soup Three carrats, four onlons, four potatoes, one pint of cabbage, cut fine. Put on to stew with just enough water to cover, until the inful reception gown of amethyst silk, richly gredients are tender. Then fill up with boll-, ing water twenty minutes before serving Add one pint of milk, one tablespoonful of butter, two eggs, beaten. Stir thick with flour and add a little yeast powder. Boll for a few intnutes before serving

Useful Household Bints. A scant cup of butter will often make a ighter cake than a full cup.

Milk is better for being kept over night in small tins than if a larger quantity is kep over night in one vessel. It is better to keep baked pastry in a cup board rather than in a refrigerator, as it would be apt to get domp and heavy in the atter place.

To keep tellies from moulding cover them ever with pulvertised sugar to a depth of a quarter of an inch. They will keep for years A Unique Rug. There was a man in Chicago the other day

showing off a \$1,500 rug. It mas made in Mo cow, and took one man two years to put it is believed by some that the word dinner | yellow of the tiger woven into the coal plies a lighted match to the thread. If you mere idea of having dinner at the barbarous the patch-like diamond pieces radiating from in halves upon the blade. ver. hour of 10 o'clock in the morning would in a circular tuft of monkey skin and bordered For the experiment described in the fore-Still did average and some all probability send a modern chef into a fit, by a rim of otter. " Charles Enbert Craddock." Charles Egbert Craddock, or, as she was discovered to be, Mary Nonliles Murfree, bie time. After the battle of Waterloo Sr. stands in the foreground of those novelists M. was the time at which the beau monde who rule estensibly over a small domain, but

long enough she precipitated one of the literary sensations of the times by suddenly appearing to their sanctum, the little, lame, studious, observant, vivacious woman that she is - the lady with the square, pale face, blue eyes and auburn hair.

The pseudonym was adopted in this wise: Egbert Craddock was the name of the hero of her second short story. It was half written He watching the experiments made to cure con before she sent her first one to the press. she was at a loss for a nom de plume, when to despair she seized upon the name of her bero, added Charles to it and gave him another title before she sent him luto the world. We all know that the characters cf her picturesque stories have not ranged outside of Tennessee and have usually been could be purchased for money—a counterpart of confined to the mountains around Murfrees-borough "Where the Battle Was Fought" when he discovered the cholers germ, both of which decided her fate as a novelist.

Fruit Muffins.

Mix equal parts of well-cooked graham flour, B. cotmen! and water and bake in muffin rings for twenty misutes, or until the cakes will slip through the rings without sticking. While hot split in haives; on one half place ripe truit, lightly sprinkled with sugar, then immediately cover with the other half. When all are thus fruit covered, set in a warm place for ten influtes before serving.

Homen Compositors in England.

The London Society of Compositors has re cently made what seems to be a new depart ure in its policy, or, at any rate, in its prac

tice, by admitting a woman as a member Mrs. Pyne, who thus leads the way for th sex, is employed as a compositor at the Kelmscott Press, liammersmith, which is under the direction of William Morris. As might be expected from this fact, as well as from the fact of her admission to the Society. Mrs. Pyne is receiving the same weekly wages as the male employees of Mr. Morris.

Heddieg Bouquete.

An English fashion for wedding bouquets is what they call the "spray bouquet." It is of after disease germs, and immediately after his enormous size and is made to be suspended arrival in this country he began his still hust enormous size and is made to be suspended from the waist of the side, leaving the bride's for the cause of caturch, which he was not long hands free for the prayer book, which an in finding. As roon as Doctor McCoy discovered English bride invariably carries. The effect English bride invariably carries. The circuit turned his attention to the discovery of a remote of flowers is very charming against the rich white satin or brocade of the bride's dress, and the decorative effect is still further ineightened by long loops of white sati good deal of midnight oil have crowned his efforts withbuccess. And now Doctor McCoy off ribbon which mingle with the flowers and matten's-hair fern and hang in a graceful cascade down the entire length of the skirt.

An Amusing Trick.

Problem-To find the position in which s

cuife must be held that a pear, suspended high up near to the ceiling, shall on the evering of the thread to which it is attached so fall as to cut itself in half upon the tlade. There is no necessity for tine or plummet : one need only dip the suspended pear in a glass of water, which we forthwith remove. The water drips from it; the exact spot on floor or table where the drops fall and make a private mark on such spot. This is done previous to the entertainment, so that the

guests on their arrival find the pear sus

The People o New York City and the Surrounding Country Offered the Benefit of This Great Discovery for Pive Dollars & Month Until Cured and All Necessary Medicines Free, Including the New Remedy, if They Begin Treatmen Before January 1st.

Here is the story of the greatest discovery the age, which is made public now for the fir

ime. The cause of catarrh has been found last. It is due to a specific germ. A part search of fourteen years has been finally warded. The discovery will revolutionize treatment of the most prevalent and disas able disease that the human flesh is beir to. a challenge for \$5,000 is issued herewith, o to all doctors who claim to cure catarrh, i the new reme is is the surest and quickest curs Desides all this, the people of New York and vicinity are offered the benefit of this great dis-covery for \$5 a month until cured and all neces-sary medicines free, including the new remedy. Doctor J. Cresap McCoy, of Doctors McCoy and Wildman, of this city, has silways cou-tended that catarrh was due to a specific germ, and has treated the disease with this belief in periodicals are calling the revival of letters in the South. Until she had succeeded, under cover of a man's name, in carning an enduring reputation, she did not disclose her dentity. She wrote a very bold signature, and when she had played with her publishers long enough she precipitated one of the THE DISCOVERY OF THE CHOLERA GERM. It must be remembered that it was Koch also who discovered the cholers germ, having been sent to Asia for that purpose by the German Government. Doctor McCoy also visited the celebrated Charite Hospital of Berlin daily and received special instruction under one of the greatest German bacteriologists. While in Berciates that in the cases where the Gern failed to do any good the cause of the failure was due to the fact that in many instances con sumption is due to catarrh, and in these cases the lymph did no good. When Doctor McCov returned to America be

brought with him the finest microscope that which instruments were made by Carl Zeiss, et

Doctor McCoy also brought over with him all the necessary appliances for the aurcessful search that entarrh was due to a specific germ be turned his attention to the discovery of a remforts with success. And now Doctor McCoy offe to the world the results of his patient invest tion and rive experience in the shape of his ne-treatment for catarrh, which is original wit bim, and is used by no other physician or phy

This is no untried remedy, as Doofor McClos does not experiment on his patients. It has been tested over a thousand times before it was fered to the public and in every instance it has proved Successiul. Doctor McCoy's discovery is not a cure-all. It cures nothing but catarrh. So careful is Doctor McCoy that his discovery may not fat! from proper preparation that he person ally manufactures every particle himself with

clars in the world.

McCoy announces that the new remedy to not rainful in its application, cannot possibly cause
